CasaTunes®
CT-4S & CT-8S Music Streamer

The versatile and intuitive CT-4S and CT-8S Music Streamers bring audio harmony to every household. Providing four or eight streaming music sources, control and up to five additional AirPlay rooms* for Audio Authority, Channel Vision, RTI, Leviton, NuVo, SpeakerCraft and Russound audio distribution systems, CasaTunes gives everyone the flexibility to easily listen to their music.

Always find something to listen to.

The CT-4S and CT-8S Music Streamers offer four or eight indepent music sources and allow you to add up to five wireless rooms*!

- Listen to songs from existing Mac or PC iTunes® libraries or your Microsoft® Windows® Media Player library – including Windows-protected music. Includes 1000 GB of storage for your music.
- Catch new releases or old favorites on Internet radio using Tidal™, Pandora™, Spotify™, SHOUTcast™, TuneIn™, JazzRadio.com™ and many more. (Some services require subscriptions)
- Use external tuners to listen to Satellite Radio, HD and traditional AM/FM radio.
- Listen to music from iPod touches, iPhones, iPads or iTunes on Macs or PCs in any room(s) wirelessly via CasaTunes, using CasaTunes Air.
- Listen to music from uPNP/DLNA media servers and other DLNA devices..

Controlling what you want to listen to has never been easier.

CasaTunes offers a number of ways to easily listen to your music. Whether you need to quickly change the volume in a room or turn off all the rooms in the house. Pick music or search for your favorite. Use these apps to quickly get you there. When you use these apps, you not only control the Streamer, you also control your complete music distribution system:

- Free iPad, iPhone, and Android Tablet and Phone Apps.
- Use a browser on any computer in your house..
- Choose an optional CasaTunes Keypad for quick, local control.

Also, drivers are avalable for easy integration into Control4, RTI, URC, Compass Control, Roomie and On Controls control systems.

*Wireless rooms cannot play music from external sources plugged into your current system
