

Multi-Stream Players

Important: This step is only for dealers using the CT-1 as a pure streamer (Multi-Stream Player Mode).

In the Controller page, you will need to take the server out of Multi-Stream Player Mode. Click on Advanced Settings and uncheck the "Configure music server as a multi-stream player" checkbox. Click on Save.

Configure music server as a multi-stream player?

After saving, you will see the Rooms page. Go to that page and click on the "Add Room". Don't worry, it is actually adding a stream. The "room" names can be left as they are and they will not affect the Streamer.

Rooms	Room 1 Settings
X 1: Room 1	Room name: Room 1
+ Add Room	<input type="checkbox"/> Hide Room

Go back to the Controller page and click on the "Configure music server as a multi-stream player" checkbox. Click on Save.

Configure music server as a multi-stream player?

Go to the Sources page and rename the new source as necessary. You are now done.

Built-in Sources	Stream 2 Settings
Stream 1	Source name: Stream 2
Stream 2	Source type: CasaTunes Media Player

Control

Use our control apps.

OR

Go to <http://CasaServer/CasaTunes> on any PC, or <http://CasaServer.local/CasaTunes> on any Mac connected to the network

CasaTunes®

Quick Start Guide: CT-1 to CT-2 Upgrade

Important: Do not connect power until CT-1 to CT-2 Upgrade is installed and all cables are connected!

Included Items

3.5mm to 3.5mm

Audio Cables
Qty 1 each type

3.5mm to RCA

Install CasaTunes Upgrade Module

Important: Make sure you power down the CT-1 before installing your Upgrade.

Important: Plug Upgrade into left USB connector on front of the CT-1

Connect Audio Outputs

Audio outputs:
2nd 1st

Setup

Turn on the server at this time.

Open any browser on the LAN and go to CasaSetup:

PC: <http://CasaServer/CasaSetup>
Mac: <http://CasaServer.local/CasaSetup>

Click on "Advanced Settings". Click on "Controllers". Open the "Upgrade CT-1 to CT-2" section. Add and activate the license key that came with the Upgrade.

Upgrade CT-1 to CT-2

CT-1 to CT-2 License Key:

Activate

Systems and System Controllers

If you are using the CT-1 in Multi-Stream Player Mode (supplying only music streams to a whole home control system) skip this step and go to the back page.

Click on "Rooms". Click on the "Add Room" button to add the new audio output.

Rooms

✘ 1: Master BR

+ Add Room
