

CasaTunes®

CT-3 Music Systems

A compact multi-room music solution for smaller homes or for any home that was not pre-wired for music. This system has 3 streams of music and can send music to five rooms that have AirPlay® Speakers or other AirPlay devices. The CT-3 has 3 stereo wired room outputs. Any room can listen to any of the three streams - CasaTunes enables everyone to listen to the songs they love and achieve the atmosphere they desire.

Always find something to listen to.

These compact systems offer three sources of streaming music and, optionally, one external source!

- Listen to songs from existing Mac or PC iTunes® libraries or your Microsoft® Windows® Media Player library – including Windows-protected music. Includes 320 GB storage.
- Catch new releases or old favorites on Internet radio using Tidal™, Pandora™, Spotify™, SHOUTcast™, TuneIn™, JazzRadio.com™, and many more. (Some services require subscriptions)
- Use external tuners to listen to Satellite Radio, HD and traditional AM/FM radio.
- Listen to music from iPod touches, iPhones, iPads or iTunes on Macs or PCs in any room(s) wirelessly via CasaTunes, using CasaTunes Air.
- Listen to music from uPNP/DLNA media servers and other DLNA devices..

Controlling what you want to listen to has never been easier.

CasaTunes offers a number of ways to easily listen to your music. Whether you need to quickly change the volume in a room or turn off all the rooms in the house. Pick music or search for your favorite. Use these apps to quickly get you there:

- Free iPad, iPhone, and Android Tablet and Phone Apps.
- Use a browser on any computer in your house..
- Choose an optional CasaTunes Keypad for quick, local control.

Also, drivers are available for easy integration into Control4, RTI, URC, Compass Control, On Controls and Roomie control systems.

*Wireless rooms cannot play music from external sources plugged into your current system
