CasaTunes®

music by the roomful

For over 10 years, CasaTunes has been delighting customers with innovative multi room audio solutions. Featuring a high-quality music experience for your home that you can enjoy no matter what you're doing, or what room you're in. Working, relaxing, entertaining friends, getting ready for your day or going to bed -- all these activities are enhanced with a CasaTunes whole home audio system providing perfect harmony for everything you do.

FEATURES & BENEFITS

CONTROL

Control your music using our native Apps for both Android and iOS smartphones and tablets, use your voice with one or more Alexa enabled devices, and via the CasaTunes keypads.

Need to tie CasaTunes into your home automation system? CasaTunes provides out-of-the-box support for many popular home automation systems, including Control4®, HDL®, RTI® and URC®.

For homes equipped with a Lutron Radio RA2® or Homeworks® lighting system, you can use your Lutron keypads, PICO controllers, and other controllers to control your CasaTunes system.

STORAGE FOR YOUR MUSIC COLLECTIONS

Our CasaTunes music server includes a large built-in disc for storing your personal music (on the CT-2, this requires the optional 120GB SSD).

Use CasaTunes QuickSync to quickly discover, index and optionally copy all your personal iTunes and other music residing on your networked computers and devices to your music server.

MUSIC

CasaTunes supports SHOUTcast® and TuneIn® radio, with over 100,000 free radio stations to choose from, as well as various popular premium music services including Calm Radio, Deezer®, Spotify®, TIDAL®, and more

You can also play any music stored on uPnP/DLNA media servers, such as a Network Attached Storage devices, Plex®, or Twonky.

SEAMLESS SONOS® INTEGRATION

Our CasaTunes music servers intelligently integrate with SONOS® providing a seamless CasaTunes/SONOS experience.

Simply connect a SONOS Connect device to your CasaTunes system to listen to all your SONOS music.
Use the CasaTunes Apps to control playback, display what's playing, and select your SONOS favorites and playlists.

To expand your existing CasaTunes system, you can simply add one or more wired or wireless SONOS speakers. CasaTunes automatically discovers all your SONOS speakers, and configures these as additional rooms in your CasaTunes system. Using the CasaTunes App, you can group rooms and control the music on all your CasaTunes and SONOS speakers.

APPLE AIRPLAY®

Every CasaTunes room and room group is automatically configured and published as an Apple AirPlay® speaker. You can stream music from any music App, on one or more iPhone, iPad and iPod touch devices, to any CasaTunes room or room group.

WAKE UP AND SLEEP TO MUSIC

Enjoy waking up and falling to sleep listening to your favorite tunes. Flexible, unlimited scheduling and slow music ramping are just a few of the many features available to make it a perfect start and end of your day.

AV RECEIVER INTEGRATION

With CasaTunes, it is now easier than ever to seamlessly integrate your AV receivers, including popular receivers from Denon, Harman Kardon, Integra, Marantz, NAD, Onkyo, Pioneer, Sony and Yamaha, into your whole house music system.

SUPPORT

CasaTunes is the recipient of the CE Pro Quest for Quality Award, an industry award recognizing CasaTunes for it's outstanding Technical Support.
Our live support team are equipped with remote access tools, which allows us to offer remote support for our dealers (and customers), in many cases eliminating the time and expense involved in having to travel to and from an installation site.
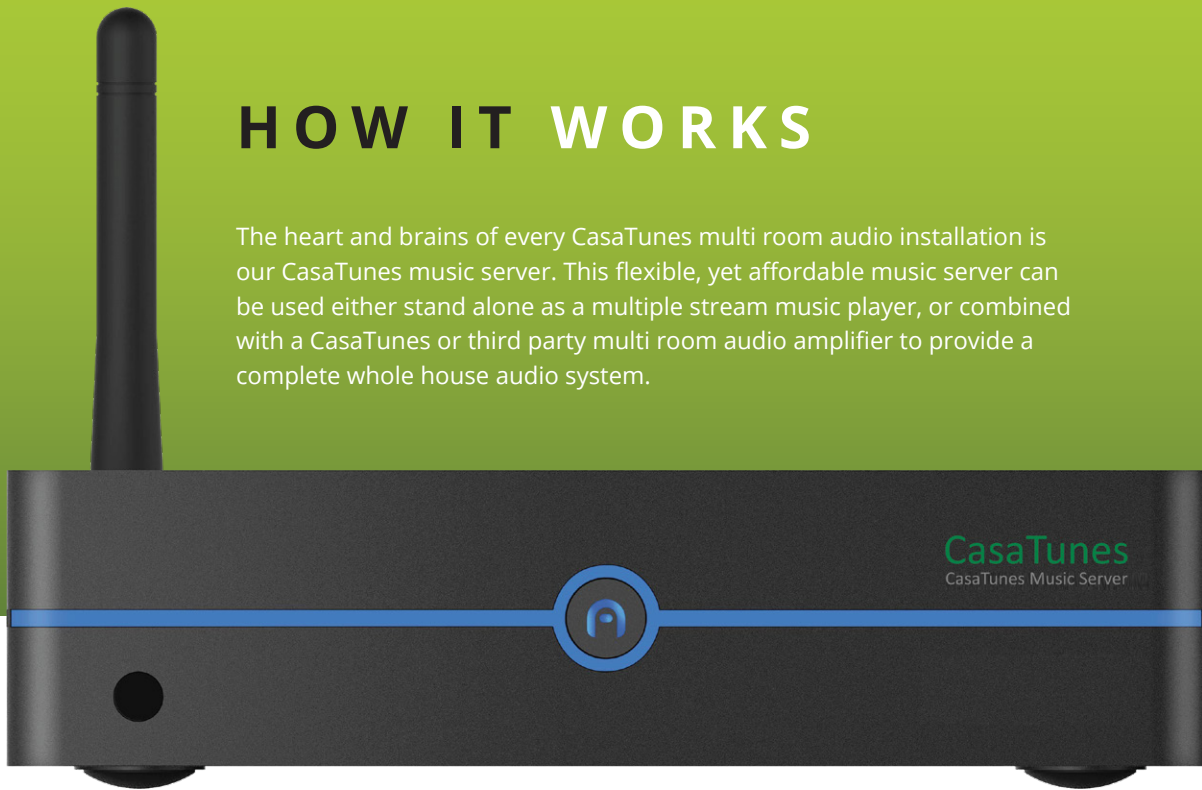

CONTINUOUS INNOVATION

Protect your investment with CasaTunes' continuous enhancements and improvements to our products.

With Internet based updates, you select whether you want CasaTunes to automatically download and install these, or for more control, you can manually install them at any time.

HOW IT WORKS

The heart and brains of every CasaTunes multi room audio installation is our CasaTunes music server. This flexible, yet affordable music server can be used either stand alone as a multiple stream music player, or combined with a CasaTunes or third party multi room audio amplifier to provide a complete whole house audio system.

Our CasaTunes music servers are available in 2, 3 or 5 stream configurations. Each stream is like a stand alone High Definition music player. You select the music to play on each player, and which player to listen to in each room. You can listen to different players in different rooms, or the same music in any combination of rooms.

The CasaTunes 6X6 matrix amplifier is the perfect companion product for our music servers. The CasaTunes 6X6 has six input sources and six amplified outputs. The CasaTunes 6X6 matrix amplifier operates as a switch, switching any of the six input sources to any combination of rooms, and as an amplifier, powering the speakers in each room.

You can add up to six CasaTunes 6X6 matrix amplifiers for a total of 36 rooms, meeting the needs of the most demanding installations.

Setup is as simple as connecting the streams from your CasaTunes music server into 2, 3, or 5 of the six available input sources on the matrix amplifier, and connecting the outputs from the matrix amplifier to the speakers in each room.

You can use any of the remaining unused input sources on the matrix amplifier to connect other music source equipment, such as a TV set top box, turntable, or Chromecast® device.

RENOVATE
YOUR MULTI ROOM AUDIO

Do you have an existing multi room audio that needs updating?

If you are using a CasaTunes compatible audio distribution system, you can renovate your existing multi room audio system by simply adding a 2, 3, or 5 stream CasaTunes music server.
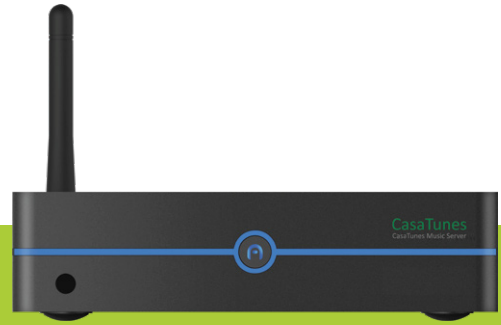

CasaTunes music servers work with audio distribution systems from Audio Authority, AudioControl, Axium, Dayton Audio, HAI, HTD, Leviton, Monoprice, Nuvo, RTI, Russound, SpeakerCraft, and Vanco/PulseAudio.
