

## CasaTunes Setup (Cont)

For any Leviton source input that CasaTunes supplies a music stream, pick CasaTunes Media Player as the Source type and set the Player Settings to match the audio jack you are using. In this example, if we connect the first CasaTunes stream to the first Leviton Source, click on Player 1 and set the settings as shown here. All of the streams use the "Speakers (Realtek High Definition Audio)".

**CasaTunes Player Settings**

Select audio device for source:

Select speakers for source:

You can assign any CasaTunes Media Player to any of the Sources.

For other source inputs, pick the Source type. If we don't list the device, pick "Unknown". Hide sources that are not used.

**Music Services**

- iPod Classic (No WiFi)
- iTunes Music
- iNetCustom
- SHOUTcast
- Spotify
- SqueezeBox (Includes Pandora, SiriusXM, Slacker and more)

**SqueezeBox Settings**

Setup an account on <http://www.MySqueezeBox.com>, then select ar your music apps, for example Pandora for use with CasaTunes. See [Setup Video](#) and Help for instructions.

Note: You must restart the SqueezeBox server below each time you your music apps.

See which [SqueezeBox Apps](#) are supported by CasaTunes.

**SqueezeBox Account Information**

User Name:

Enable all of the music services you are interest- ed in.

Some music services require setting up SqueezeBox. Follow the directions in CasaSetup.

Some music services require paid accounts, as noted in CasaSetup.

Now, name all of your sources and rooms and set your Time Zone and Update settings. Check Hide box for any Sources or Rooms not used. Click on Advanced Settings and use the Project Information page to create a backup of the project.

## Control

Use our control apps.

OR

# CasaTunes®

## Quick Start Guide: CasaTunes CT-3S for Leviton

**Use this guide only when using CasaTunes to stream to and control Leviton Hi-Fi2 systems.**

## Included Items

Network Cable Qty 1

Serial Cable Qty 1  
**Not used for Leviton**

Power Cable Qty 1

3.5mm to RCA  
**Not used for Leviton**

3.5mm to 3.5mm

## Connect CasaTunes to Leviton Hi-Fi2

Use Audio Cables to connect stream outputs to Leviton System's 3.5mm inputs

From external devices (tuners, cable boxes, etc.)

Leviton Hi-Fi2 4x4 used as an example

## Connect to LAN and Power

## CasaTunes Setup

Turn on the system at this time.

Open any browser on the LAN and go to CasaSetup:

PC: <http://CasaServer/CasaSetup>  
Mac: <http://CasaServer.local/CasaSetup>

Use CasaSetup to select the Leviton Hi-Fi2. Select IP and enter the IP address that the Hi-Fi2 is using. Leave the TCP Port number to the default setting. Although you may use serial control, it requires a special serial cable from Leviton

### Controller Settings

Select Controller Type:

Use Serial (RS-232) or IP?

### IP Settings

IP Address:

TCP Port:

After clicking on Save, the Sources and Rooms refer to the source inputs and zone or room outputs of the Leviton system you are controlling. (continued on back page).
