

CasaTunes Setup (Cont)

For any source input that CasaTunes supplies a music stream, pick CasaTunes Media Player as the Source type and set the Player Settings to match the audio jack you are using. In this example, if we connect the first CasaTunes stream to the first Source, click on Player 1 and set the settings as shown here. All of the streams use the Speakers (Realtek High Definition Audio). You can assign any CasaTunes Media Player to any of the Sources.

For other source inputs, pick the Source type. If we don't list the device, pick "Unknown". Hide sources that are not used.

<input type="checkbox"/> Grooveshark <input checked="" type="checkbox"/> iPod Classic (No WiFi) <input checked="" type="checkbox"/> iTunes Music <input type="checkbox"/> iNetCustom <input checked="" type="checkbox"/> SHOUTcast <input type="checkbox"/> Spotify <input checked="" type="checkbox"/> SqueezeBox (Includes	<p>Setup an account on http://www.MySqueezeBox.com, then select and configure music apps such as Pandora, SiriusXM, and Slacker for use with CasaTunes. SqueezeBox Setup Video and Help for instructions.</p> <p>Note: You must restart the SqueezeBox server below each time you reconfigure your music apps.</p> <p>See which SqueezeBox Apps are supported by CasaTunes.</p> <p>▼ SqueezeBox Account Information</p> <p>Username: <input type="text" value="kimkann@casatunes.com"/></p>

Enable all of the music services you are interested in.

Some music services require setting up SqueezeBox. Follow the directions in CasaSetup.

Some music services require paid accounts, as noted in CasaSetup.

Now, name all of your sources and rooms and set your Time Zone and Update settings. Check Hide box for any Sources or Rooms not used. Click on Advanced Settings and use the Project Information page to create a backup of the project.

Control

Use our control apps.

OR

Go to <http://CasaServer/CasaTunes> on any PC, or <http://CasaServer.local/CasaTunes> on any Mac connected to the network

CasaTunes®

Quick Start Guide for CasaTunes CT-3S Streamer

Use this guide only when using CasaTunes to stream to and control RTI, Audio Authority, Channel Vision, SpeakerCraft, NuVo and Russound audio distribution systems.

Included Items

Network Cable Qty 1

Serial Cable Qty 1

Audio Cables Qty 3

Power Cable Qty 1

Connect to Distribution System

Connect to LAN and Power

CasaTunes Setup

Turn on the system at this time.

Open any browser on the LAN and go to CasaSetup:

PC: <http://CasaServer/CasaSetup>
Mac: <http://CasaServer.local/CasaSetup>

Use CasaSetup to select the type of Audio Distribution system. Select the COM port you will be using. Usually, the default COM port will be the correct choice.

After clicking on Save, the Sources and Rooms refer to the source inputs and zone or room outputs of the Distribution system you are controlling. (continued on back page).
