

CasaTunes®

CT-20 and CT-24

Music Systems

For larger homes the CasaTunes CT-20 and CT-24 supply up to 24 rooms of wired sound plus multiple wireless rooms. CasaTunes® Music Systems bring audio harmony to every household. Every room can listen to a different song at the same time and, of course, multiple rooms can listen to the same stream - CasaTunes enables everyone to listen to the songs they love and achieve the atmosphere they desire. In addition to all of the streaming music, the CT-20 includes five external inputs and the CT-24 includes six.

Always find something to listen to.

Depending on the model purchased, these CasaTunes CT Music Systems offer up to twenty-four sources of streaming music and up to six external sources!

- Listen to songs from existing Mac or PC iTunes® libraries or your Microsoft® Windows® Media Player library – including Windows-protected music. Includes 1 TB of storage.
- Catch new releases or old favorites on Internet radio using Tidal™, Pandora™, Spotify™, SHOUTcast™, JazzRadio.com™, TuneIn™ and many more. (Some services require subscriptions)
- Use external tuners to listen to Satellite Radio, HD and traditional AM/FM radio.
- Listen to music from iPod touches, iPhones, iPads or iTunes on Macs or PCs in any room(s) wirelessly via CasaTunes, using CasaTunes Air.
- Listen to music from uPNP/DLNA media servers and other DLNA devices..

Controlling what you want to listen to has never been easier.

CasaTunes offers a number of ways to easily listen to your music. Whether you need to quickly change the volume in a room or turn off all the rooms in the house. Pick music or search for your favorite. Use these apps to quickly get you there:

- Free iPad, iPhone, and Android Tablet and Phone Apps.
- Use a browser on any computer in your house..
- Choose an optional CasaTunes Keypad for quick, local control.

Also, drivers are available for easy integration into Control4, RTI, URC, Compass Control, On Controls and Roomie control systems.

*Wireless rooms cannot play music from external sources plugged into your current system
